You can get the coupon by scan QR codes below:

The image shows a screenshot of the VinylStudio for Windows software interface. The background is a snowy forest scene. The software window is titled "VinylStudio for Windows" and features a "15% OFF" discount badge. The interface includes a "What would you like to do?" section with options like "Prepare to record (or import) a new album" and "Work with an album added previously". Below this, there's a section for "Albums in collection" with a list of albums, including "Ecclesia Sgt. Pepper ('967)". A yellow box highlights the instruction: "Click Check Level to set the recording level, then click Record." The interface also has a "Side to Record" dropdown set to "Side 1 (or the whole thing)", a "Maximum Recording Time" of "0 :00", and a "Wait for Needle Down" checkbox checked. A tooltip is visible over the "Wait for Needle Down" checkbox, stating: "Wait for the needle to hit the record surface before starting recording. Recording will stop automatically at the end of the record if this box is checked." A QR code is located on the left side of the image. At the bottom, there is a text overlay: "Claim discount at <https://www.trackedcoupon.com/c15582-6-jan>".
